

**BACHELOR OF SCIENCE AGRIBUSINESS MANAGEMENT WITH HONOURS [BSc. Agribus. Mgmt. (hons)]**

**INTRODUCTION**

This programme is multi-disciplined, combining business management science and agricultural science. The purpose of the programme is to produce graduates who are efficient managers of firms based on agriculture and natural resource.

**PROGRAMME LEARNING OUTCOMES**

The goal of the programme is to produce graduates with breadth and depth in knowledge, as well as positive personalities. Specifically, the learning outcomes of the program are as follow:

1. To enhance knowledge and understanding of concepts, theories and practices in the field of agribusiness.
2. To plan, analyse and identify solutions to the agribusiness-related problems.
3. To upgrade the interaction skills with society and stakeholders aside from emphasizing social responsibility towards society and nation the related fields.
4. To become efficient, effective, and ethical businessman and managers.
5. To communicate effectively in oral and writing, possess leadership skills and be able to work in groups at any levels.
6. To integrate and synthesize agribusiness issues in organization, as well as able to assess planning, execution and solution options within the organization and the community.
7. To improve skills in gathering and utilising information using ICT and to enhance knowledge through life-long learning.
8. To manage limited agriculture resources to achieve optimum efficiency and identify business opportunities through entrepreneurial skills learned

In addition, each student will also be required to undergo a four-month practical training. This exposure will give the opportunity for the students and industry/institution to acquire the intended objectives.

**CAREER PROSPECTS**

Career prospects for graduates in this field are bright. Due to the flexibility of the programme structure, its graduates can work in a wide range of sectors. The programme has also prepared the graduates to not only be efficient employees, but also to be capable managers, especially in agri-related sectors. Variety of career opportunities including business ownership (entrepreneurship), farm manager, and business administration.

**BEEB2023 MACROECONOMICS**

**PRE-REQUISITE BEEB1013 PRINCIPLES OF ECONOMICS**

The analysis is based on the Keynesian economics and experience of Malaysian macroeconomics situation. Thus, the theoretical and practical aspect of the economy is combined. The course is divided into 3 main sections. Section 1 focuses on the measurement of macroeconomic variables, in particular national income accounting and national income determination. Section 2 discusses the demand side of macroeconomics models from a simple economy to an open economy. In this section, the interaction of real and money market through money, interest and income is examined. An open macroeconomic model is also highlighted. The supply side of macroeconomics is also explained, particularly the labor market. The Classical macroeconomics view is also included in the analysis for comparison to that of the Keynesian economics. Finally, section 3 emphasizes on macroeconomic policy in which fiscal and monetary policy is examined.
